Mr. William Melofchik
 Legislative Director
 National Council of Insurance Legislators
 2317 Route 34 Suite 2B
 Manasquan, New Jersey 08736

Dear Mr. Melofchik:

Comprehensive Orthopaedics and Musculoskeletal Care is located in Connecticut and has four locations. We treat thousands of patients monthly and it is the goal of our physicians to work to restore the fullest possible functionality to our patients.

Part of our comprehensive approach to care includes dispensing medications directly from the office. We write this letter in strong opposition to the National Council of Insurance Legislators (NCOIL) "model bill" on physician dispensing.

Given the Workers Compensation Research Institute (WCRI) research, regarding physician dispensing, was completely discredited by the Maryland Workers Compensation Commission, why is NCOIL relying on this report?

We urge NCOIL to reject this "model bill"

Sincerely,

Michael J. Ross
 Executive Director
 Comprehensive Orthopaedics
