§ 100. Short Title

This Article shall be known and may be cited as the "Paid Family Leave Income Replacement Benefits Act".

§ 101. Purpose

[State] is a family-friendly state, and providing the workers of [State] with access to paid family leave insurance will encourage an entrepreneurial atmosphere, encourage economic growth, and promote a healthy business climate. Many workers need to take time off work for family reasons, including bonding with a new child or caring for an ill family member. Increasingly, employers in [State] want to make paid leave benefits available to workers who need time off for these reasons. Employers recognize workers will be healthier and more productive workers when able to take care of family responsibilities without a complete loss of income, and believe that offering paid family leave benefits to their employees will improve recruitment opportunities and reduce turnover in the workplace. Disability insurers currently offer income replacement benefits to workers who need time off from work because of their own disabling medical condition. Disability insurers have extensive experience, claims staff, systems, and expertise that can be used to provide fully insured paid family leave benefits for employees either through employer-sponsored group insurance policies or voluntarily purchased employee policies. It is in the best interests of [State's] workers and employers to permit disability insurers to expand their fully insured benefits in [State] to include paid family leave benefits.
