It is important to remember that the strongest consumer protection is a solvent company at the time of a claim, so legislators must always keep insurer solvency in mind."

"This group of chairs and vice-chairs that Rep. Ferguson has selected reflects NCOIL's commitment to these goals and will certainly contribute to the positive growth and momentum NCOIL has experienced the past several years," Considine concluded.

*NCOIL is a national legislative organization with the nation's 50 states as members, represented principally by legislators serving on their states' insurance and financial institutions committees. NCOIL writes Model Laws in insurance and financial services, works to preserve the State jurisdiction over insurance as established by the McCarran-Ferguson Act over seventy years ago, and to serve as an educational forum for public policymakers and interested parties. Founded in 1969, NCOIL works to assert the prerogative of legislators in making State policy when it comes to insurance and educate State legislators on current and longstanding insurance issues.*
