Rep. Tom Oliverson, M.D. (TX) - NCOIL President

Welcome to the third installment of my quarterly newsletter column.

I hope everyone has been having a fantastic summer since we were all together in Costa Mesa last month for another successful NCOIL National Meeting. As I start my last quarter as NCOIL President, I'd like to reflect on what we've accomplished so far this year and the work that lays ahead for the rest of 2024.

From a membership perspective, we are seeing the hard work we've put in over the past several years come to fruition. Throughout our first two Meetings of 2024, we have seen participation from 114 legislators from 37 states and for 39 of those legislators, it was their first time attending an NCOIL National Meeting. For those of you who didn't attend, you missed a great Meeting in a wonderful venue. That number is already higher than the legislator attendance seen across all three Meetings in both 2023 and 2022 which is truly illustrative of NCOIL's growing national reach and prominence.

It wasn't too long ago that NCOIL's goal was to have legislator participation from just over half the states around the country throughout a whole year and now we are consistently exceeding that former goal achieved at every individual Meeting. Additionally, the number of first-time legislators seen so far this year is a really positive sign for NCOIL's growing membership. Bringing more legislators from more states into NCOIL is essential in ensuring the Model Laws we are crafting incorporate viewpoints from all around the country.

In addition to the growth we have seen in our legislative membership this year, we also continue to make advances on the policy front on a wide range of timely and important issues. We've made great progress on the development of several Model Laws dealing with topics such as third party litigation financing, mental health parity, earned wage access providers, incentivizing homeowners to strengthen their homes against natural disasters, and value-based purchasing agreements between States and drug manufacturers. I look forward to rounding out those and other discussions in the near future in an effort to provide states with bipartisan legislative guidance.

During our Costa Mesa meeting, we also kicked off our two-part series focusing on the theme of "prevention is better than a cure." Part one focused generally on things such as the importance of preventive care and adherence to medicine and I was glad to see the productive dialogue it sparked among our members. I look forward to continuing the conversation in San Antonio where we in part two we will explore the role of proper nutrition in the prevention of disease and how food really is medicine. This is an issue that impacts all of our constituencies, so it really is important

that we as legislators are informed on how best to support health and longevity in our communities.

Also in San Antonio, we'll be hosting our 3rd Annual NCOIL Open Insurance Legislators Foundation (ILF) Scholarship Fund Golf Outing. The event will be held on the afternoon of Thursday, November 21st at TPC San Antonio immediately preceding the Annual Meeting. The Scholarship Fund helps legislators attend NCOIL National Meetings and our first two NCOIL Opens have been essential in moving the fund from barely solvent to thriving, so I look forward to another successful event in my home state. More information on the outing can be found on the NCOIL website [here](#).

Additionally, following the golf outing, the Welcome Reception will be held at the historic Alamo. Having everyone gather at such a historic setting will be a great way for all attendees to kick off our last National Meeting of the year. After this reception, everyone certainly will "Remember the Alamo."

On that note, I look forward to finishing out the year in a very strong way and I can't thank you all enough for all you do to support NCOIL. I hope you can find time to enjoy the rest of the summer and I look forward to seeing you in San Antonio and hearing from you in the interim.

All the best,

Tom
